Say Hello to Cabolo

The smartest, fastest, safest and
most intelligent way to record
and transcribe any meeting.

cabolo[®]
A Cadat85 Product

Cabolo delivers a smart speech recognition ecosystem

that makes transcription and recording meetings simple, in multiple languages, with customisable vocabularies for various sectors.

A smart device for any meeting with our intelligent software embedded, helping businesses to simultaneously record and transcribe speech to text, in real time.

Cabolo is part of Cedat 85, an integrated award-winning technology company and service provider. A market leader in developing and implementing the world's most powerful and innovative speech-to-text technology solutions.

We possess more than 30+ years expertise in speech digital processing, text analysis, deep neural networks and machine learning.

Considered in the top 11 world-wide players for Speech to Text applications and in the top 5 in Europe.

Market Guide for Speech-to-Text Solutions 2020, **Gartner**

Environment

We also develop and supply different acoustic models, which allow the user to optimise the audio capture when in small or large rooms, or where echo or other background noise is present. We also offer custom integrations with any existing audio-visual solutions in use within corporate boardrooms or conference environments.

The Device

Our device is completely standalone, requires no internet connection or technology from other providers. All transcriptions take place in real-time, locally on the device and are stored on encrypted drives (internal or USB key).

Marketplace

A marketplace where customers can purchase additional language models, upgrades, services, support, and maintenance.

Languages

Currently available in English, Italian, and Spanish with more language models coming soon. We have a team dedicated to customising and improving our tools for accents, professional/sector-specific nomenclature.

Output

Combined sincro.doc plug-in, audio recording and ready made documents in XML and MS Word. Archivable and searchable with the enhanced feature of live subtitling now available.

Secure

Recording and transcription are secured and protected on an encrypted USB key, everything is transcribed locally (no cloud or other external connection).

Organised

Tag your meetings by specific keywords to easily retrieve information. Categorise your meeting archive by topics and organise them for fast reference.

Customisable

Cabolo can be customised for accents and sector-specific nomenclature. We also offer custom integrations with any existing audio-visual solutions in your office.

Plug and Play

Cabolo has its own built-in microphone array, you can plug Cabolo into your existing meeting room microphone / conference system and start using Cabolo to record and transcribe your meetings.

Interface

Your conversations are transcribed in real-time through our custom interface that includes; meeting agenda features, pre-installed language models, and a verbatim correction facility. Users can also add meeting notes and assign speaker names.

Out of the box

It's s your device with battery pack, warranty, and setup instructions. 100hrs of transcription hours with the opportunity to purchase additional hours through our customer marketplace or by subscribing to Cabolo.
